Welcome Message

Dear Colleague,

The fetal brain no longer remains a challenge because of recent advances in ultrasound technologies and in genetics. Unfortunately, however, these advances have a wide & patchy presence in recent literature. To streamline the flow of a logical approach to the fetal brain, the Odisha Chapter of the Society of Fetal Medicine is putting together a **Neurosonography Update** for its **Annual Meeting on the 10th and the 11th of June, 2023.**

Come, be a part of this demystification exercise. We promise you a changed mind & a confident approach to the subject after attending this congress. The finest international, national and regional faculty promise you an easy path.

See you in Bhubaneswar!
